Leading Professionals

in South Australia on

**DEEP BRAIN STIMULATION SURGERY
and
NEUROPHYSIOTHERAPY**

SOUTH AUSTRALIAN DYSTONIA GROUP

PRESENTS

DR ANDREW ZACEST, Consultant Neurosurgeon at the Royal Adelaide Hospital and Clinical Associate Professor for the University of Adelaide, trained in Neurosurgery at the Royal Adelaide, Royal Prince Alfred and Westmead Hospitals. He was one of the first neurosurgical trainees in Australia to be awarded a Pain Fellowship by examination through the Australian and New Zealand College of Anaesthetists. During his post fellowship training in the USA, he specialised in stereotactic and functional neurosurgery. His interests include all applications of functional neurosurgery, including neurosurgery for pain, deep brain stimulation, radiosurgery, epilepsy, brain tumours and general neurosurgery.

DR JAMES MCLOUGHLIN, Neurological Physiotherapist with degrees in Physiotherapy and Clinical Neuroscience, and a PhD in balance and gait, has extensive experience in neurological and vestibular rehabilitation. After working as Clinical Specialist in Neurology in London, he is now director of James McLoughlin NeuroPhysiotherapy in Payneham, SA. He is part-time Associate Professor in the Department of Rehab, Aged and Extended Care at Flinders University, and leads the Neurological Physiotherapy Masters program.
